

Station/Rep Software Provider Status Chart

In July 2008, the TVB completed development and went fully live with TVB ePort, setting the standards for eBusiness in the television industry for orders, revisions, makegoods, and much more. The TVB works closely with industry software providers to guide and assist them in seamlessly connecting with TVB ePort. Our goal is to provide an effortless connection between buyer and seller desktop systems. The following charts illustrate the individual providers' status for both current functionality as well as planned future functionality. Please contact your software provider for more details, or contact TVB ePort at 877-808-9949 or support@tvb-eport.net.
